Dear Human Resources,

As an Educational Technology Teacher with 9 years of experience in education, I apply with enthusiasm for this role. I believe I can offer your organization an extraordinary mix of my teamwork, talents, and tenacity.

I began my career in technology as a Senior Applications Specialist for 3 years at Texas Children's Health Plan. After completing my Master's degree in Curriculum & Instruction with a concentration in Educational Media & Technology from Prairie View A&M University, I left Texas Children's Health Plan to embark on a career in education technology at Roderick Paige Elementary.

While working at Roderick Paige Elementary I held numerous job titles during my 8 years on campus. I served as Technology Teacher for grades Prekindergarten thru 5th, Campus Technology Coordinator, Campus Testing Coordinator, Title 1 Coordinator, RTI/504 Coordinator, Fine Arts Department Chair, After School Program Coordinator, Summer School Program Coordinator, and Teacher Specialist. Each role equipped me with the skills and capabilities necessary for this position.

I left Roderick Paige Elementary to become an Assistant Principal at KIPP Peace Elementary as I worked to obtain a Master's degree in Educational Administration from Lamar University. Being an administrator, I was able to provide professional development, integrate technology into the existing curriculums, and create new lesson plans to encompass technology in all classrooms. I took the knowledge from this position to become a Job Coach for students with disabilities and presently a middle school Educational Technology Teacher where I plan and deliver high-quality teaching in a virtual setting.

Moreover, while my on-the-job experience has afforded me a well-rounded skill set, including first-rate organizational and team-building skills, I also excel in video conference tools including Zoom, Teams, Skype, Google Meet, Connexus, Adobe Connect, Chrome Books, iPads, and smartboards.

As you can see, I am goal-oriented and driven my qualifications are vital to anyone who will be a productive staff member for your department. I look forward to hearing from you so that we may schedule an interview.

Sincerely,

Quincy T. Hale
